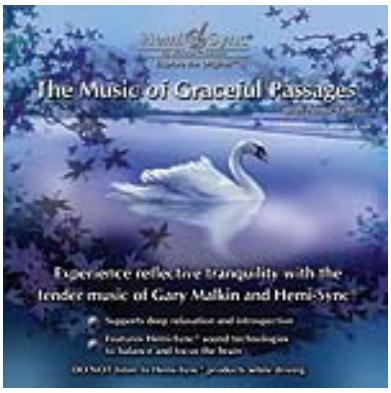
(LCN Connections Issue 7 - May 2013)

CD REVIEW:
THE MUSIC OF GRACEFUL PASSAGES WITH HEMI-SYNC®



From the best-selling CD-book *Graceful Passages*, this music by Gary Malkin will immerse you in your own private refuge of tranquility and reflection. The mu- sic was originally inspired by authentic spoken messages from many of the world's spiritual and humanitarian leaders; each spoke from a state of unconditional love, compassion, and a sense of Oneness with Source. As a result, when listening to this music, allow it to open your heart and offer healing for any wounds that may still remain. Since we are often most vulnerable during time of loss or change, experience this listening meditation as you transverse any significant transition in your life; so that you can remember who you are, live with an awareness of what matters most, and remember that you are never alone. The Hemi- Sync® frequencies will deepen this experience, carrying you to a profound state of relaxation, and allowing for calm and deep awareness of the beauty of life.
